It is with great pleasure that the Kangaroo Group invites you to its
11th LUNCH IN STRASBOURG IN 2019

“From COP25 towards a Green Deal that delivers – the role of large-scale carbon removal”

For the past decade, experts and scientists from the IPCC, UNFCCC, IEA, as well as academia, have been warning that the only way to ensure full and proper decarbonisation globally is to promote carbon removal. For this to be successful, the European Green Deal must encompass the whole range of technologies and solutions for carbon management available to us, in particular Carbon Capture and Storage. With COP25 just behind us and the new Commission freshly in office, it is paramount we explore all aspects and angles of the transition with relevant stakeholders from EU institutions and industry to ensure the Green Deal’s proposals deliver economy-wide, cost-effective decarbonisation, while strengthening Europe’s competitiveness.
