

**INVITATION**

(for Kangaroo Group Members and Guests)

**SAVE-the-DATE**

**VIRTUAL-DEBATE**

**Tuesday, 1 December 2020, from 13:00 to 14:30 hrs**

**“Plastics as an enabler for the Green Deal – The role of recycling technologies in a circular economy”**

*Plastics provide significant sustainability benefits versus alternative materials. They will continue to play an important role to help the EU to achieve its climate ambitions. But Plastic waste in the environment is an issue, which is part of a larger challenge related to global waste management infrastructure. Plastics are valuable. They should not end up in the oceans or in the environment. Industry, governments, NGOs and consumers have an opportunity to work together to encourage better recycling, reuse and recovery of plastic waste. To contribute to this the Kangaroo Groups discussion will focus on the role of recycling technologies for plastics in a circular economy.*

**Welcome:**

Michael GAHLER MEP, President of the Kangaroo Group, tbc

**Opening Statement:**

Philippe DUCOM, President of ExxonMobil Europe

*Other Speakers to be announced*

*This debate will be conducted via Zoom and hosted by the Kangaroo Group*
